

# Ten Thousand Vines Winery

## FALL 2017

### FRESH JUICE ORDERS

Once again this Fall, we are offering our winemaking customers the ability to purchase the same juices we bring in for the winery's production. These are freshly pressed and shipped on a refrigerated truck direct to the winery. If you are interested in any of the grapes we are ordering, please reserve your pails in advance. Due to our limited cold storage space, we will order only what we need.
