

**Ten Thousand Vines Winery**  
**FRESH JUICE ORDERS: SPRING 2018**

We are in the process of placing our order for the Spring winery juices from Chile. As always, we offer our home winemakers access to any grapes and juices we bring in for our tanks. We are very selective when sourcing grapes for our winery. These musts are freshly pressed locally and shipped on a refrigerated truck direct to the winery.

You may recall that last year’s harvest was impacted by the huge forest fires in Chile. The good news is this year’s crop is looking great. The weather has been great and is expected to remain so through harvest. Unfortunately, a lasting impact of last year’s fires is that many vines were destroyed and now supply will not keep up with demand. As a result, the per ton grape prices have increased slightly. Our price per buckets has not risen as much, but is slightly higher than last year.

If you are interested in any of the grapes we are ordering, please reserve your pails in advance. Due to our limited cold storage space, we will order only what we need.

WHITES, \$73.99

Chardonnay  
 Riesling

REDS, \$79.99

Cabernet Sauvignon  
 Malbec  
 Pinot Noir  
 Syrah (Shiraz)

We are also offering a discount of \$10 per pail for orders of 5 or more pails, so bundle orders with your friends to save! If you are interested in purchasing any of these juices, **please have your Pre-Orders to us by Saturday, March 31**. We are projecting delivery on or before April 10. Due to the perishable nature of fresh pressed juice, we will notify everyone of the confirmed delivery day in advance and we ask that you make plans to pick up your order within a day of their arrival.

All prices are for 6 gallon pails. A \$20 deposit per pail is required to reserve your order.
